## Who We Are

---

*The Alliance for Peace and Justice is a grassroots group working for justice as the practical way to achieve peace in our local communities, in the nation, and in the world.*

*We will articulate relevant social, economic and political justice issues, motivate people to take positive positions on these issues and to participate, individually and collectively, in actions that will help create a more just and peaceful world.*

*We strive for a world ruled not by military and economic power but by justice and equal regard for the rights and welfare of all people. For this, we believe, is the surest way to peace.*
